

QI module documentation: End of life care

It is anticipated that the responses noted here should total approx. 1 A4 side in Arial font size 11.

Practice name and ODS code
Diagnosing the issues
<i>What issues did the practice identify with current end of life care?</i>
<i>What SMART outcomes did the practice set for each measure?</i>
Results
<i>What did the practice achieve?</i>
<i>What changes will/ have been embedded into practice systems to ensure improved quality end of life care in the future?</i>
<i>How did the GP network peer support meetings influence the practice's QI plans and understanding of end of life care?</i>
Please attach the results of both end of life care audits (as appendices), including identified SMART outcomes for each objective.
