

Learning Disability Coronavirus Vaccine Discussion Forums

The South East London CCG Learning Disability and Autism team are hosting some virtual discussions via Zoom for people with Learning Disability and Autism, their families and carers to learn and have conversations with NHS staff on the Coronavirus Vaccine.

In these discussions our colleagues will introduce the need-to-know basics of having a vaccine, what to expect and what benefits there are to getting your vaccine.

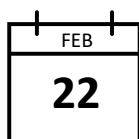

Some time will then be provided for you to discuss the vaccine with the presenters, health professionals, and your peers.

There will be two sessions, the information will be the same for both sessions. This is so more people can join and have an opportunity to talk with us.

zoom

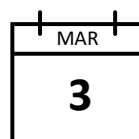

The two sessions will be via Zoom

**Monday the
22nd February 2021**

1 pm-2pm

**Wednesday the
3rd March 2021**

1 pm-2pm
