

Engagement Assurance Committee

DATE: 21 January 2021

Title	Developing engagement	
This paper is for decision/discussion		
Executive Summary	This paper sets out progress to date in developing the CCG's approach to engagement, issues for further consideration and proposed next steps.	
Recommended action for the Committee	The committee is asked to discuss the issues raised in the papers and proposed next steps and make any further recommendations to support the development of the engagement approach.	
Potential Conflicts of Interest	None	
Impacts of this proposal	Key risks & mitigations	The key risk is there will be a delay in the implementation of the CCG's approach to engagement and developing an Integrated Care System (ICS) approach to engagement.
	Equality impact	The paper outlines the importance of working with the diverse communities across south east London and reframing the relationship with local people to address health inequalities and develop person centred care.
	Financial impact	N/A
Wider support for this proposal	Public Engagement	The paper outlines engagement activity that has taken place to date and builds on the recommendations of the task and finish groups which were approved by the committee in January 2021.
	Other Committee Discussion/Internal Engagement	The paper builds on discussions at the governing body seminar in December 2020, discussions at the Engagement Assurance Committee in January 2021, discussions within the wider communications and engagement team.
