BPAS CEO

## Welcome to British Pregnancy Advisory Service (BPAS) Clapham

I am very pleased to introduce you to our new clinic.

BPAS Clapham is now open to provide abortion services to women in South East London.

BPAS Clapham was opened to maintain access to abortion for the women of South East London following the closure of BPAS Streatham.

The clinic is in an ideal location due to its excellent transport links with Clapham Common Station which is within walking distance and numerous bus routes. This new location on the ground floor has access for people with a physical disability or additional physical needs.

The clinic opened in June 2021 offering consultations, Early Medical Abortion (EMA) treatments, post treatment checks, scans, STI testing and contraception.

This clinic is a satellite of BPAS London East in Stratford which provides conscious sedation treatments up to 13+6 weeks gestation, and also works closely with BPAS Richmond, which provides treatments up to 23+6 gestation.

The unit is open Monday to Friday.

## Our values

### Compassionate

We listen to our clients and deliver services to meet their needs. We build relationships with those we care for based on empathy, dignity and respect.

### Courageous

We are the voice of the women we care for and are never afraid to advocate on their behalf, particularly when others are silent. We are at the forefront of innovation in clinical care and campaign tirelessly for the services women need.

### Credible

We act with integrity. Everything we do is evidence-based and ethical, informed by our knowledge and understanding of the needs of those we serve.

### Committed to women's choice

We believe that women are best placed to make their own decisions in pregnancy, with access to evidence-based information to inform those choices, and the services they need to exercise them.

*“Our non-judgemental, dedicated team of staff strives to meet the expectations of our clients, whilst ensuring individual care needs are met.”*

“BPAS Clapham provides consultations, Early Medical Abortion (EMA) treatments, post treatment checks, scans, STI testing and contraception. This clinic is a satellite of BPAS London East in Stratford which provides conscious sedation treatments up to 13+6 weeks gestation, and also works closely with BPAS Richmond, which provides treatments up to 23+6 gestation.”

Our BPAS Aftercare Line is open 24 hours a day, 7 days a week
