

# Person Centred Care Training

Person Centred Conversation is all about shifting from “what’s the matter” to “what matters” and tapping into an individual’s motivation to shift behaviour. This training will support you to:

- To learn about person centred care and what it means for you
- To develop and practice your skills in conversations with people
- To put people and their families at the centre of decisions

This training is a 90 minute live session virtually via Zoom/Microsoft Teams. E-certificates will be issued.

If you have not completed any Person Centre Care or Making Every Contact Count training before, please register and complete the [Core Skills Personalised Care Training](#), 1- hour online course before attending the live session.

All staff working in Partnership Southwark partner organisations including VCS are welcome. For 2021 dates, [please book via Eventbrite](#).
